... THE MOST EXCITING COOKING DEVELOPMENT OF THE CENTURY

Cannon *Foldaway*

RADIANT HEAT COOKER

GRILLING with the Cannon 'Foldaway' Grill is so easy. Again, Cannon have devised further improvements to their 'Foldaway' High-Level Grill providing

a larger capacity Grill pan. So large is its capacity and so versatile its application that over 150 recipes described in the Cannon Grill Recipe Book can be cooked to perfection or finished off under the 'Foldaway' Grill.

Like the 'Foldaway' Open Roasting Spit, the Grill is also amazingly easy to clean after use. When you have finished Spit Roasting the motor folds away protected from steam, grease and dust. When you have finished grilling, the whole large capacity unit folds away into 4½ inches of space, and is again brought into operation in a matter of seconds.

The Foldaway Radiant Heat Cooker (Gas Model) is supplied complete with Platerack and Kebab Attachment (5 skewers).

Dimensions			
Height	13¾"
Width	21"

			13"
			4½"

*Dining off
a Dagger!*

with the Cannon Kebab attachment (another exciting new Cannon Development) specially designed for use with the 'Foldaway' Radiant Heat Cooker.

The Cannon Kebab attachment takes you into an exciting cooking world of Kebabs, Shishebabas and Shashliks offering a whole range of new palate-tickling dishes. It provides Kebab skewers (rotated by the Rotisserie motor), on which a wide variety of assorted foods may be grilled.

There is no surer way of tickling a jaded palate than by Kebab cooking with its unlimited variety of flavour combinations.

When you cook a Kebab Meal you toss ordinary rules overboard. You may cook all meats, kidneys, bacon, sausage, mushrooms, chicken sections, rabbit, fruit, fish, shrimp, prawn, shellfish etc., on a skewer—or for a never-ending cooking adventure you can mix them a hundred different ways as a main meal, sweet or savoury.

Anything which will cook under a grill will cook better on a Kebab Skewer — and with enhanced flavour.

Dining off a Dagger is delicious !

Cannon *Foldaway*

RADIANT HEAT COOKER

an electrically operated open roasting spit that does not spit or splatter.

The Cannon 'Foldaway' Radiant Heat Cooker is revolutionising Domestic Cooking. Seldom does a new domestic appliance change over-night the principles and methods accepted for years — yet this has happened. The Cannon 'Foldaway' Radiant Heat Cooker — with its Open-Roasting spit **which does not spit or splatter** — re-discovers rather than discovers, for it brings back Real Old Fashioned Roasting which went out of domestic use with the large open kitchen fire and spit during the 19th century. **Spit Roasting is the only way of roasting.** Oven cooking of meats and poultry is baking, the enforced inferior substitute for lack of real roasting facilities.

What is Real Roasting? It is Quick, very High Temperature radiant-heat sealing of the natural juices in meat or poultry (which escape into the meat tin with oven baking); then odourless Lower Temperature open-spit radiant-heat cooking, in a free atmosphere — both impossible in oven cooking.

The 'Foldaway' Open Spit is **true roasting**, the only way of retaining the natural flavour and succulent juices of Meats, Poultry and Game.

You will never taste the true succulent flavour of Meat, Poultry and Game until you Roast on the Open-Spit — having tasted it you will never go back to oven cooking.

The 'Foldaway' Radiant Heat Cooker brings Real Roasting within the reach of every Housewife, no matter how new her cooking equipment may be. The 'Foldaway' supplements and **completes** the existing cooker. To Baking, Boiling and Grilling, it adds real roasting for the first time!

Open Spit Roasting

WITH THE Cannon

ULTIMHEAT[®]
VIRTUAL MUSEUM

An epoch-making Cannon development bringing you all the advantages and joys of old time open Spit Roasting, undoubtedly the best and most succulent way of cooking meat, poultry and game.

The Cannon 'Foldaway' will save fuel and time and bring many new gastronomical delights to your family, hitherto the privilege of the Rotisserie Chef.

The 'Foldaway' Open Roasting Spit opens up an exciting new era in Domestic Cooking. A variety of new flavours impossible with Oven Baking can be introduced by basting — and just think, wipe over clean in sixty seconds. No more dirty oven cleaning.

The Cannon 'Foldaway' is as exciting as it is practicable and will prove to be the most useful cooking appliance you have ever used.
