And the exciting new range of Moffat Electric Cookers *do more for you!* More in every way! Look at the host of fabulous features, there to make cooking less fuss and *more fun!* Practical, *easy-clean* design minimises the cleaning-up afterwards. Only a Moffat makes more of your kitchen with its sheer elegance. Only a Moffat gives the luxury of *easy-living* at a price that couldn't be more reasonable.

ULTIMHEAT®
VIRTUAL MUSEUM

MOFFAT E110

Here's one of the stars of the new Moffat range. It's sparkling with features and new ideas, ideas that look good in the kitchen, make cooking more exciting than ever before. Note the positions of the Controls, Grill, and Open Spit Rotisserie—all placed at a new comfort height. Like all Moffat cookers, it features an exceptional, easy-clean design.

MOFFAT E95

A dynamic, new concept in cookers that combines the beauty of Moffat planning and modern practical use. With the Sunken Hob comes a further comfort height; at 34½ inches, a handier height for stirring and observing. Though slightly smaller than the Moffat E110 (it's 24 inches) it carries the same specifications apart from the Roast Meter.

OPEN SPIT ROASTING

Moffatts new high-level Rotisserie enables you to truly Roast—possibly for the first time. The joint turning under the radiant heat of the grill is sealed and retains all the nourishing, natural juices of the meat. Minimum meat shrinkage and no splatter. Cooks the meat to a tenderness and succulent taste you never thought possible. Takes a 10 lb. roll of Beef or two chickens. Satin chrome door closes when not in use, and has a built-in safety cutout switch.

HIGH-LEVEL GRILL

always in easy view, has four adjustable height positions and infinite heat control. Radiant element spreads even, all-over heat to every corner of the 105 sq. inch grilling area. Eight lamb chops or a mixed grill for four people can be cooked in one operation.

THERMOGUARD CONTROL

One of the most useful features of these models. Measures the heat in the cooking utensil and maintains the precise temperature that's pre-set. Prevents boiling over or over-heating.

LIFT-OUT HOTPLATES

They remove easily for cleaning, giving easy access to the spillage bowls. Each hotplate is standard 7-inch size and interchangeable with the others.

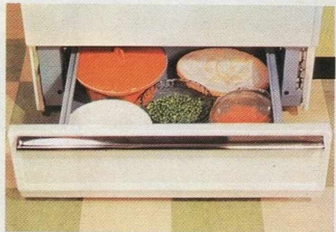

GIANT-SIZED OVEN

The Moffat owner will never have trouble cooking for crowds. Just look at the size of the ovens; 5,200 cu. inches on the E110; 4,400 cu. inches on the E95. And every inch is usable cooking space. All cooking is easily viewed through the picture window door. The oven has its own interior light and is finished in pale acid resisting enamel.

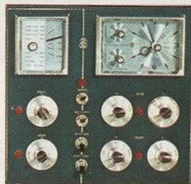

AUTOMATICALLY-TIMED WARMER DRAWER

Another giant-size feature. Extra big, warming drawer can keep an entire meal warm prior to serving or be used for storing saucepans and pans. Can be timed with the automatic clock.

CONTROL PANEL

set against a beautiful sapphire background. Easy to see finger-tip controls with indicator lights...way out of the reach of children. The Automatic Timing Unit controls the Oven, Warming Drawer and Thermoguard hotplate. A Handy Minute Timer, a reminder for all household activities, is also contained in the automatic clock.

ROAST METER

Cooks the very large joints as you like them. You just set to *rare*, *medium* or *well-done*, push the meat thermometer probe in the joint and a buzzer tells you when it's done. (E110 only).

GOOD DESIGN DOES NOT FINISH WHEN THE COOKING IS DONE

Just study these easy-clean features :

Removable grill reflector; Removable grill base; Removable grill pan runners; Sunken hob prevents spillage down sides of cooker; Removable hotplates, bezels and spillage bowls; Removable oven door, oven sides and oven top; Lift-up oven element, oven light and oven in new easy-clean pale enamel; Removable warming drawer. No-splash spit roasting.

MOFFAT E75

Another cooker from Moffat with a completely new and refreshing design—Moffat E75. Modest in price big in performance! It's got many of the important features of the larger Moffat models: the lift-out hot-plates and the spill-proof sunken hob!

LARGE OVEN

Probably the largest of any cooker of this size, with 4,000 cu. inches of usable oven space. The pale oven finish and the oven light permit all cooking to be easily observed through the picture window door. The non-tip shelves have ten cooking positions.

KING-SIZE GRILL

180 sq. inches of grilling area can handle ten lamb chops or twelve slices of toast at one go. The Rotisserie fits into the grill pan for rotary roasting.

NEW CONTROL PANEL

Dial-A-Heat switches give infinite heat control of the hotplates. Automatic Timing Unit controls oven Rotisserie and Warming Drawer. Minute timer gives a reminder for household activities.

GOOD DESIGN DOES NOT FINISH WHEN THE COOKING IS DONE

Just study these easy-clean features:

Sunken hob prevents spillage down the sides of the cooker; Removable hotplates; bezels and spillage bowls; Removable oven door, oven sides; Lift-up oven element; Swing down grill element; Oven light, oven finished in new easy-clean pale enamel; Removable warming drawer.

MOFFAT BUILT-IN COOKERS

Moffat Electric "Built-Ins" bring a wonderful new flexibility to your kitchen routine. Oven and Counter Unit are completely independent of one another. Now you can place the hotplate right where you want it. Now you can mount the oven at eye-level. Here's an end to stooping, stretching, all the drawbacks of old-time kitchen layouts. Easiest to install, Moffat Oven and Counter Units are housed in standard cabinets designed by all leading kitchen cabinet manufacturers.

MOFFAT 99

Moffat Built-in cookers are beautifully designed for the planned kitchen. They allow you complete flexibility, supreme cooking ease and all the famous Moffat features. This is the Moffat 99, in luxurious satin chrome finish, including power-operated Hi-Lo-Matic shelf and Roast Meter.

MOFFAT 40

Companion Built-in counter unit to the Moffat 99, but both units are independent. You can install in any part of your kitchen counter at the cooking height you like. The unit contains four lift-out hotplates, one of which is a Thermo-guard hotplate. In satin chrome finish.

MOFFAT 69

This is the Moffat 69 which incorporates many of the Moffat design features; Rotisserie, Automatic Timing and Handy Reminder Timer. Finished in white porcelain enamel.

MOFFAT 38

Moffat Built-in counter units for the kitchen can be mounted wherever your cooking suits you. They not only add beauty to the kitchen but also flexibility of design planning and installation. This counter unit is complementary to the Moffat 69, and is finished in white porcelain enamel.

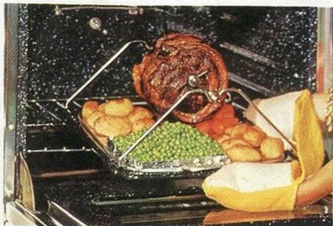

Moffat Built-in counter units feature

THERMOGUARD CONTROL

This is the wonderful feature of Moffat that keeps an eye on cooking for you. It measures the heat in the cooking utensil and then keeps the exact temperature that's set.

Moffat Built-in ovens feature

ROTISSERIE

Everything about this Moffat feature is a luxury. It's self-basting for sealing in the flavour, juices and goodness of meat. Keeps shrinkage to a minimum. Lets you use regular oven settings and is automatically timed.

Moffat 99 Built-in oven features

HI-LO-MATIC POWER RACK

Just press the key and the Grill/Oven shelf moves up or down to required height while you watch through the Picture Window.

Both Moffat Built-in cookers feature

- AUTOMATIC-CLOCK CONTROL
- MINUTE TIMER
- FAMILY-SIZE GRILL
- PICTURE WINDOW, LIFT-OFF DOOR
- OVEN LIGHT
- ROTISSERIE
- STORAGE DRAWER
- LIFT-OUT HOT PLATES

Units are housed in standard cabinets designed by leading kitchen cabinet manufacturers.

If you use specially-designed cabinets, be sure provision is made for oven venting—either by making an open recess directly above the oven, or, where this area is enclosed, using a material with a stain-resistant finish.

Dimensions shown are for planning only.

INSTALLATION DIMENSIONS

In keeping with our policy of continuous improvement, product designs and specifications are subject to change without notice.

GUARANTEE—All Moffat cookers are guaranteed for a period of one year from date of purchase against mechanical and electrical defects. Full details of the guarantee are set out on the guarantee card supplied with each cooker. These details may be obtained on request.

DELIVERY—Every effort will be made to comply with delivery promises, but we cannot be held responsible for any unavoidable delays which may occur.
