

Think productivity

Production flow goes straight

Think productivity

Automate when it is possible

Think productivity

No unnecessary work  
No unnecessary move  
No unnecessary time  
No unnecessary component

Think productivity

Design products with less components

Think productivity

If you don't our competitors will do better than us

Think productivity

Teach and Train workers

Think productivity

Design easy to assemble product

Think productivity

Think work place ergonomoy

Think productivity

Use your brain more than your hands

Think productivity

Design dummy  
proof  
assemblies

Think productivity

It starts  
with drawings
