

THINK QUALITY

Respect working instructions

THINK QUALITY

Do not contaminate products with dirty hands

THINK QUALITY

Report problems immediately

THINK QUALITY

Be proud of improvements

THINK QUALITY

It makes the difference

THINK QUALITY

Clean factory = clean work

THINK QUALITY

Think team work

THINK QUALITY

Team work takes good decision

THINK QUALITY

Quality starts with communication

THINK QUALITY

Dirty hands
contaminate
products

THINK QUALITY

Find solutions,
not excuses

THINK QUALITY

Management
shows the way,
follow it

THINK QUALITY

Our customers
are watching
you !

THINK QUALITY

Use
appropriate
equipment for
measurement

THINK QUALITY

Update
drawings,
update
documents

THINK QUALITY

Deliver in time !

THINK QUALITY

Take care of
machines and
equipments

THINK QUALITY

If you don't
know, ask
advice!

THINK QUALITY

Make sure our customer returns not our product

THINK QUALITY

Be proud of quality: show it!

THINK QUALITY

Every problem has a solution

NO QUALITY

No more customer
No more work
No more money

THINK QUALITY

Our customers merit the best service

THINK QUALITY

Answer to customer's request the same day

THINK QUALITY

Customers judge us through your telephone answer

THINK QUALITY

Do it right the first time we dont always get a second chance

THINK QUALITY

If we don't our competitors will

THINK QUALITY

Quality only happens when you care enough to do your best

THINK QUALITY

Small details count

THINK QUALITY

And we will grow together

THINK QUALITY

Take care of measuring instrument

THINK QUALITY

Products destroyed during shipment = our packing is not appropriate

THINK QUALITY

Packing must withstand 1 meter drop test

THINK QUALITY

Packing must comply with customer requirements

THINK QUALITY

Packing must protect goods during shipments

THINK QUALITY

Fill QC documents and reports in time

THINK QUALITY

In production

Use right containers

THINK QUALITY

Rejected

Use right containers

THINK QUALITY

Rework

Use right containers

THINK QUALITY

Waiting inspection

Use right containers

THINK QUALITY

Raw materials and components without IQC not allowed in production

THINK QUALITY

Design with international standards

THINK QUALITY

Raw materials must be identified

THINK QUALITY

Every product and component in production has a reference
